Challenge to Website Marketers

Website traffic is too dependant on search engines. If your site cannot rank high, you cannot get any traffic.

Search engines change algorithm too often.

Search engine marketing becomes expensive, you may require to pay US\$1 to US\$10 per click for just one keyword in Google Adwords, Overture, etc.

Still, you want to drive traffic every day and night.

Solution

Start your reciprocal link exchange management.

- It is a low to no cost method.
- Allows to build one more traffic generation system, **no need to solely rely on search engine traffic.**
- It helps you drive traffic daily!
- As a side effect, it helps to improve your search engine ranking too.

Benefits of Reciprocal Link Exchange

Reciprocal link exchange refers to a webmaster place links of other webmasters' websites on his website. In exchange, other webmasters also place his link on their websites.

Finally, ALL reciprocal link exchange partners can INCREASE their website traffic through their link partners.

ONE more source to drive traffic! No need to be solely depends on search engine traffic.

Benefits of Reciprocal Link Exchange

Since more websites are linking to your website, your website's link popularity is increasing.

Link popularity is a very important factor to your site's search engine ranking. The higher is your link popularity, the higher is your search engine placement.
